The societies of the employes are strong in numbers, and railroad officials assert, not inclined to be scrupulous about the means adopted to carry their ends. The destructive disturbances on the Eric road last year were started by the strike of the Brakeman's union at Hornellsville, N. Y., and it is supposed the same association will start the ball this year, unless the companies yield the increase demanded.

A New York paper that has been investigating the matter says that since the 1st of January last work has been commenced on 1,100 buildings in New York and by the close of the year it is thought the total will reach 2,000 aggregating in the lotted with the last of all will reach 2,000 aggregating in the lotted with the last of all will reach 2,000 aggregating in the lotted with the last of an analysis of the last of all will reach 2,000 aggregating in the demand does not warrant advance uptoon to the last of supply of the demand does not warrant advance uptoon to the last of the last of the last of supply of support of the same association of the last of last of the last of last of the last sened for a delegate meeting representing

The greatest number of buildings ever erected in one year was 2,000 ralued at \$43,250,000, in 1871. Philadelphia builds about twice as many houses every year as New York, but of a cheaper character.

THE Memphis Appeal does not propo to give up the ship on account of the yel-low fever. To those of its citizens who ran away to St. Louis and set up business,

it says:
